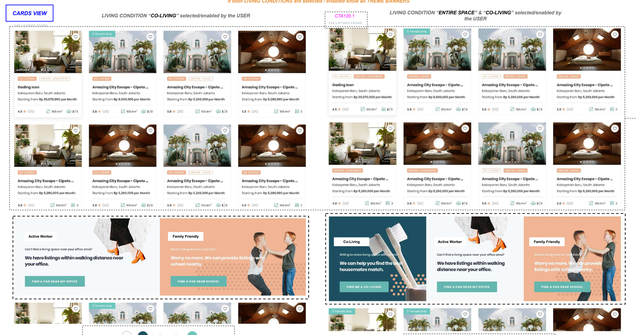
*LIVING CONDITION "**CO-LIVING**" selected/enabled by the USER*

*LIVING CONDITION "**ENTIRE SPACE**" & "**CO-LIVING**" selected/enabled by the USER*



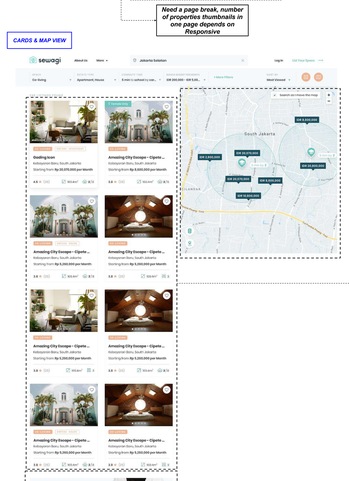
Need a page break, number of properties thumbnails in one page depends on Responsive

Need a page break, number of properties thumbnails in one page depends on Responsive

CTA174 ***Showed THEMES BANNERS***

It depends on the LIVING CONDITION CTA128 ***selected / enabled by the USER.***
We should not show THEME BANNERS that are related to the LIVING CONDITION selection.
Ex: If we have chosen Co-Living as living conditions, then Co-Living related THEME BANNERS are not relevant to be shown amidst the SEARCH RESULTS.
If both LIVING CONDITIONS are selected/ enabled show all THEME BANNERS.

CARDS & MAP VIEW



Need a page break, number of properties thumbnails in one page depends on Responsive

For ***Thumbnails*** *explanations / Settings*

THUMBNAIL, features *and* ***SAME*** *as the ones* ***FOR ALL CO-LIVING / ENTIRE APARTMENT, Favorites.***

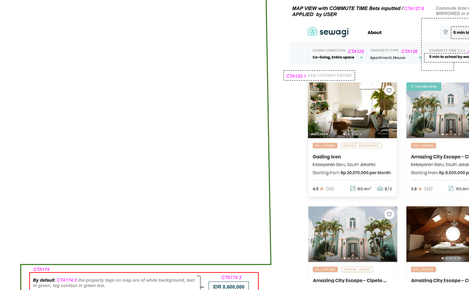
SEE
1- Chart - HOMEPAGE

CTA175 *Search Result Page - CARDS & MAP VIEW*

When user clicks CTA136 **NEAR ME** function, **the map centralizes on NEAR ME geolocation.** And **shows properties up to 20km in all directions** from NEAR ME precise location.

MAP VIEW with COMMUTE TIME Beta inputted / APPLIED by USER

Commute time Beta details MIRRORED in the Main Search Bar.



CTA177

By default, *SEARCH AS I MOVE THE MAP is* ***UNSELECTED:***

IF "Search as I move the map" function is UNSELECTED: *Property Price Range, Commute time Beta, Terms, Length of stay, Payment options* *WILL NOT REFRESH / RELOAD* ***as user zoom-in / zoom-out / navigate the Map.***

- CTA177 ***COMMUTE TIME Beta DISABLED:***
  Function "Search as I move the map" SELECTED:

"Search as I move the map" *overrides location related function* *Live Location* *Search bar, Commute time* *Beta* ***as user navigates the map.***
All other none location related filters remain Active *(e.g. terms, living condition, etc)*
Refresh results in Property results thumbnails on left side and Property Cards & Map View *Refresh function* *Refresh* *this applies for* CTA175 ***"Cards & Map" / "SVIEW" & "FULL MAP" views.***

- CTA177 ***COMMUTE TIME Beta ENABLED:***
  When ***user clicks to ENABLE the*** *Search as I move the map"* *function,* ***show SPLASH SCREEN*** *with following messages before allowing navigation of map:*

splashscreen29

If you navigate the map while commute time is enabled, commute time details will be overridden.

Do you wish to proceed ?

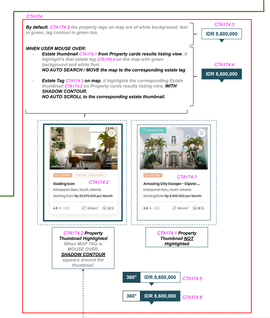
CTA177.1 Cancel | CTA177.2 YES

Clicking CTA177.1 ***YES overrides all location related functions.***
Preserve the input entire search bar or commute time ***is still visible but not ENABLED.***
Refresh results in Property results while "searching as i move the map", which also feeds into the property results thumbnails on left side.

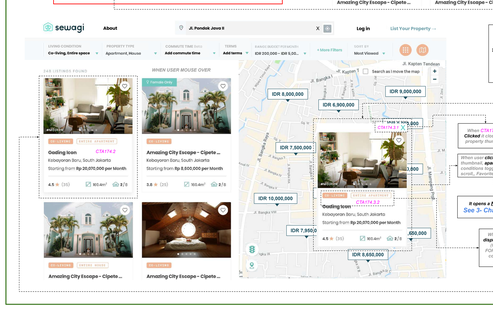
CTA178

By default, CTA178.3 *the property tags on map are of white background, text in green, tag contour in green too.*

WHEN USER MOUSE OVER:
- ***Estate thumbnail*** CTA174.1 ***from Property cards results listing view*** *: highlight is that same tag* CTA178.1 *on the map with green background and white text.*
  NO AUTO SEARCH / MOVE the map to the corresponding estate tag
- ***Estate Tag*** CTA178.1 ***on map:*** *it highlights the corresponding Estate thumbnail* CTA174.1 *on Property cards results listing view.* ***WITH SHADOW CONTOUR.***
  NO AUTO SCROLL to the corresponding estate thumbnail.



MAP VIEW WITHOUT COMMUTE TIME Beta inputted by USER



When ***Property Tag*** CTA174.3 ***is CLICKED:*** ***it opens the property thumbnail on the map.***

THUMBNAIL, visual is IDENTICAL *to thumbnail visual in PROPERTY CARDS RESULT LISTING, with same information and functionality.*

See 1- Chart - HOMEPAGE

When CTA174.2.1 **clicked** = *deletes* **property thumbnail.**

When user **clicks on** the **Tag** CTA178.1 **apart from** being conditioned to Picture scroll, Favorites.

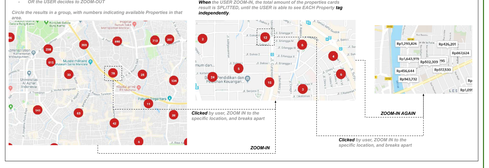
It opens a New TAB with Property Card
See 3- Chart - PROPERTY CARD

When ***clicking either*** of the CTA174.2.2 ***it displays the corresponding details and opens a new TAB*** *with the* ***PROPERTY PAGE*** *loaded.*
FOR THE THUMBNAIL, on the MAP AND OR *corresponding THUMBNAIL,* CTA174.2 *in PROPERTY CARD RESULT Listing*

CTA179

When:
ON THE MAP, the properties cards result amount is TOO MANY and very close together where the ***properties tags can't be seen independently***
OR the USER decides to ZOOM-OUT

Circle the results in a group, with numbers indicating available Properties in that



When *the USER ZOOM-IN, the total amount of the properties cards result is* ***INCREASED,*** *until the USER is able to see EACH Property* ***tag independently***

Clicked *by user, ZOOM IN to the specific location, and breaks apart*

Clicked *by user, ZOOM IN to the specific location, and breaks apart*

CTA178

When COMMUTE TIME Beta *function* CTA177 *is ENABLED,* ***ONLY TAGS*** CTA178.3 ***available in the COMMUTE TIME Beta perimeter is shown*** *polygon is drawn out from the commute time settings inputted by the user). OUTSIDE OF the polygon, no TAGS are shown.*

When COMMUTE TIME Beta is ENABLED as a POI LOCATION input, use the corresponding POI icon CTA178.2 ***to position the center of his COMMUTE TIME (ex: Shopping Centers / Hospital / Clinics / Public transportation station / Education Institution / Banks / House of Worship / Gym & Sport Complex / F&B).***

CTA178.1

IF the location selected by user is not a POI, *use this* ***ICON*** CTA178.2 *to locate the center of his COMMUTE TIME Beta.*

CTA178.2

When COMMUTE TIME Beta *function is ENABLED,* ***show details*** CTA178.3 ***of way of transport*** CTA178.4 ***and duration*** CTA178.5

Example:
5 minutes by walk

CTA178.3

CTA176
